

Ambitious About Autism
Risk Assessment – Coronavirus (2019-NCov)
Risk Assessment – The Rise School

Definitions

“AaA” means Ambitious About Autism and Ambitious About Autism Schools Trust.

Clarifications

The purpose of this Risk Assessment is to outline risks associated with the COVID-19 pandemic, as well as the actions AaA is taking to manage these risks, specifically for The Rise School. This particular risk assessment is to cover a specific AaA setting and is intended to cover any person entering that setting, regardless of whether they are a pupil, parent or guardian, member of staff, volunteer, partner, visitor or contractor.

Separate, more specific risk assessments have been drawn up for specific groups of staff, as well as pupils and learners. This risk assessment is different in the sense that it is intended to cover the access to and generally understood activities within particular setting or location.

AaA recognizes that some staff are classified as per the government guidance as being particularly vulnerable. Where appropriate and in accordance with government guidance, separate, individual risk assessment and subsequent adjustments will be made for these staff.

THIS RISK ASSESMENT MUST BE READ IN CONJUNCTION WITH THE GENERIC “SCHOOL AND COLLEGE STAFF” RISK ASSESMENT
(*Please see footnote on final page of this document)

THIS RISK ASSESMENT IS REVIEWED MONTHLY, AND WILL THEREFORE CAPTURE ANY ADDITIONAL CONTROL MEASURES DEEMED NECESSARY AS THEY
ARISE.

Title:	Coronavirus (2019-NCov) Risk Assessment	Page:	Page 1 of 16
Issue Date:	20 May 2020	Review Date:	13/06/2021

1.0 Background

A coronavirus is a type of virus. As a group, coronaviruses are common across the world. Typical symptoms of coronavirus may include a fever and a cough that may progress to a severe pneumonia causing shortness of breath and breathing difficulties. The UK government is updating the official symptoms periodically, as more is learned about the disease.

Generally, coronavirus can cause more severe symptoms in people with weakened immune systems, older people, and those with long-term conditions like diabetes, cancer, and chronic lung disease. Novel coronavirus (2019-nCov) is a new strain of coronavirus first identified in Wuhan City, China. Viruses constantly change through mutation, and so the emergence of new variants is an expected occurrence and not in itself a cause for concern; SARS-CoV-2 is no exception. A diversification of SARS-CoV-2 due to evolution and adaptation processes has been observed globally.

While most emerging mutations will not have a significant impact on the spread of the virus, some mutations or combinations of mutations may provide the virus with a selective advantage, such as increased transmissibility or the ability to evade the host immune response. In such cases, these variants could increase the risk to human health and are considered to be variants of concern. AaA will continue to monitor and react to all new variants of the coronavirus and implement specific controls measures where necessary.

In mid-September of this year, epidemiologists identified new coronavirus variants (or strains) that was markedly different from all the others. The Kent & South African strains have appeared throughout the U.K. By December, British health officials were concerned by how quickly it had spread, and a series of stringent lockdown and travel bans were put into effect. These lockdown measures (tier 4) effect all the venues with AaA.

A vaccination programme for all staff was introduced in February 2021, all front-line staff have been given the opportunity to have the first COVID vaccination by FEB 21. In January 2021 all AaA Schools & Colleges have introduced twice weekly lateral flow testing of staff & some pupils. A separate risk assessment is in place to cover this activity.

All Pupil & Learners return to School/Colleges from 8th March and COVID19 Home testing will start in line with Government guidance from week beginning 8th March 2021. A separate risk assessment is in place and covers this new hazard.

COVID Response plan Spring 2021 – AaA will be following Government guidance on the lifting of restrictions and the four-step roadmap out of lockdown. Site & Staff risk assessments will be reviewed to decide which activities can restart and which control measures can be removed.

COVID Response plan Spring 2021 – AaA are now entering into stage 3 of the 4-step road map out of lockdown and the control measures reflect this within all COVID risk assessments.

Issue Date:	20 May 2020	Review Date:	13/06/2021

Food Management	Risk of contracting COVID19 from pupils or staff whilst working with food and during mealtimes.	Staff, Pupils, visitors	<ol style="list-style-type: none"> 1) Ensure that staff supporting pupils and learners during mealtimes or food-related learning activities are supplied with adequate and appropriate PPE and wash their hands regularly. 2) Use tape within dining or teaching spaced to demarcate zones to encourage and reinforce social distancing where practicably possible. 3) Remove / rearrange furniture if practical and possible to ensure adequate space is allowed between pupils and learning activities. 4) Ensure that food is not left out and / or exposed for extended periods. Unfinished food should be promptly discarded. 5) Use disposable cutlery / crockery in pupil eating areas across all bubbles and dining locations. 6) Not allow the sharing of food between pupils, learners and the staff supporting them.
Cleaning of school	Risk of contracting COVID19 from surfaces, infecting others by not cleaning using appropriate chemicals and PPE	Cleaners, Staff, Pupils, Visitors	<p>These control measures are in addition to the Coalo Risk Assessment</p> <ol style="list-style-type: none"> 1) Ensure Cleaning team are included in communicating the risk assessment. 2) Cleaning company, Coalo, supply their cleaners with appropriate PPE to safely undertake their cleaning regime. 3) All chemicals used are updated with COSHH data sheets and risk assessments. 4) Standard cleaning regime continues between 4:15-6:15am of whole school. 7) Daily cleaning of touch points around the building will be carried out between 10am-2pm following COVID-19 site specification.
Visitors & Contractors on site	Risk of contracting COVID19 from pupils, staff, visitors or contractors.	Staff, Pupils, visitors	<ol style="list-style-type: none"> 1) Severely restrict external visitors from entering the education settings. Any and all visitors must have a critical reason for entering the building. 2) Restrict contractor attendance to critical and compliance-related work only, ensuring that said work is undertaken over weekends or after hours where at all possible 3) All visitors and contractors must sign in at Reception using the Inentry software. 4) Visitors and contractors are expected to maintain social distancing measures within the building wherever practicable. 5) Visitors and contractors are to use the visitor toilet located in the foyer area only. 6) Visitors and contractors are only able to work on site if they have the required PPE. If they do not, they will be provided with gloves and Face coverings wherever possible. 7) All contractors on site must have completed a AaAST Permit to Work. 8) Contractors and visitors to wear face coverings in communal areas such as corridors, toilets at all times

Title:	Coronavirus (2019-NCoV) Risk Assessment	Page:	Page 13 of 16
Issue Date:	20 May 2020	Review Date:	13/06/2021

Development of symptoms or contracting COVID19.	Risk of infecting colleagues / pupils / learners with COVID19.	Staff, Pupils, visitors	<ol style="list-style-type: none"> 1) If anyone exhibits symptoms, they are to alert the SLT immediately and be taken to the isolation room. 2) If a pupil, or staff member develops symptoms compatible with coronavirus, they should be sent home and advised to self-isolate for 10 days. Their fellow household members should self-isolate for 10 days. All staff and pupils who are attending an education setting will have access to a test if they display symptoms of coronavirus and are encouraged to get tested in this scenario. 3) Guidance and procedures in place within AaA for staff to manage the onset of suspected symptoms, or indeed contracting COVID19. https://ambitiousaboutautism.sharepoint.com/sites/CoronaVirus/ 4) Guidance around testing for COVID19. https://ambitiousaboutautism.sharepoint.com/sites/CoronaVirus/SitePages/Coronavirus-testing.aspx 5) School must follow the COVID-19: cleaning of non-healthcare settings guidance. Where the pupil, or staff member tests negative, they can return to the school and the fellow household members can end their self-isolation. Where the pupil, or staff member tests positive, the rest of their class or group should be sent home and advised to self-isolate for 10 days. The other household members of that wider class or group do not need to self-isolate unless the pupil, or staff member they live with in that group subsequently develops symptoms. 6) As part of the national test and trace program, if other cases are detected within the cohort or in the wider setting, Public Health England’s local health protection teams will conduct a rapid investigation and will advise the school and other settings on the most appropriate action to take. In some cases, a larger number of other children, young people may be asked to self-isolate at home as a precautionary measure – perhaps the whole class, site, or year group. Where settings are observing guidance on infection prevention and control, which will reduce risk of transmission, closure of the whole setting will not generally be necessary.
Development of negative mental health symptoms			<u>PLEASE REFER TO THE GENERIC “SCHOOL AND COLLEGE STAFF” RISK ASSESMENT</u>
Staff may have questions around			<u>PLEASE REFER TO THE GENERIC “SCHOOL AND COLLEGE STAFF” RISK ASSESMENT</u>
